

CURRICULUM OVERVIEW (UK)

The courses and programs at the Harley Street Institute stand out uniquely in the field of aesthetics education. Drawing from our extensive experience, we have crafted a curriculum that caters to learners at every level, from beginners to advanced practitioners. This curriculum is thoughtfully structured to progressively build the essential skills needed by future aesthetic professionals.

“Our Hybrid Approach Improves Results”

Our leading-edge online platform enhances this learning experience, featuring high-definition videos and a comprehensive blend of theoretical and practical knowledge. This prepares our trainees for the rigorous, hands-on practical sessions where they work with real patients, ensuring they are thoroughly equipped for real-world practice.
